

1 Q. ARE YOU THE SAME SHARON G. SCOTT THAT PREVIOUSLY FILED
2 PRE-FILED TESTIMONY IN THIS CASE?

3 A. Yes, I am.

4 Q. WHAT IS THE PURPOSE OF YOUR SUPPLEMENTAL TESTIMONY?

5 A. The purpose of my supplemental testimony is to inform
6 the Commission of a settlement that the Staff and the
7 Company have agreed upon for the Commission's
8 consideration. The numbers contained herein were
9 developed solely for the purposes of a compromise
10 agreement. Should the Commission reject the settlement
11 proposal, then Staff reiterates its numbers and
12 proposals contained in direct testimony.

13 Q. MS. SCOTT DID YOU PREPARE ANY EXHIBITS IN CONNECTION
14 WITH THE PROPOSED SETTLEMENT AGREEMENT?

15 A. Yes, I have attached four exhibits that detail the
16 results of the proposed settlement. The Exhibits are
17 Audit Exhibit A, entitled Operating Experience, Rate
18 Base and Rates of Return, Audit Exhibit A-1, Explanation
19 of Accounting and Pro Forma Adjustments, Audit Exhibit
20 A-2, Customer Growth Computation and Audit Exhibit A-5,
21 Return on Common Equity. The Exhibits detail the results
22 of the proposed settlement agreement.

23 Q. PLEASE DESCRIBE THE PROPOSED SETTLEMENT AGREEMENT?

1 A. The Company agreed to lower the amount of the proposed
2 requested increase from \$92,114,000 as originally filed
3 to \$62,071,000. The Company also agreed to lower the
4 requested return on common equity from 11.75% to 10.90%
5 for purposes of setting rates in this proceeding.
6 However, as a part of the settlement agreement the
7 Company is requesting that the Commission approve a
8 range for its return on common equity of 10.40% to
9 11.40% with rates set at 10.90%. In exchange for the
10 above reductions the Staff agreed to accept the
11 Company's proposed adjustments to turbine maintenance,
12 selective catalytic reactor expenses, NERC standards and
13 Jasper operating and maintenance expenses. The Staff
14 also agreed to include the unamortized GridSouth costs
15 in rate base. The Staff agreed to remove its adjustment
16 to average moving expenses. The Staff lowered the
17 adjustment for officer pay and incentive increases to
18 exclude only the officers that are listed in the
19 Company's proxy statement.

20 **Q. PLEASE DESCRIBE THE EFFECTS OF THE SETTLEMENT AGREEMENT**
21 **ON THE CALCULATIONS IN EXHIBIT A?**

22 A. As shown in column (1), using total electric operations
23 per the Company's filing, the Staff computed net

1 operating income for return of \$327,221,000. The Staff
2 computed a rate base of \$4,014,886,000 for the Company's
3 total electric operations. The Staff computed the rate
4 of return on rate base to be 8.15% on total electric
5 operations.

6 Shown in Column (2) are the accounting and pro forma
7 adjustments proposed by the Staff on a total electric
8 basis.

9 Column (3) presents the Company's as adjusted total
10 electric operations. The Staff computed net operating
11 income for return of \$283,467,000. The Staff computed
12 the adjusted total electric rate base to be
13 \$3,797,255,000. The Staff computed the as adjusted rate
14 of return on such rate base to be 7.47%.

15 In Column (4) the Audit Staff computed the Company's
16 total retail operations based on the cost of service
17 study recommended by the Staff's Utilities Department.
18 Net operating income for return was computed to be
19 \$319,628,000 on a retail basis and retail rate base was
20 computed to be \$3,831,455,000. The Staff computed the
21 return on retail rate base to be 8.34% prior to making
22 accounting and pro forma adjustments.

1 Column (5) presents the Staff's accounting and pro forma
2 adjustments on a retail basis. Such accounting and pro
3 forma adjustments are described in Staff's Audit Exhibit
4 A-1.

5 Column (6) presents the Company's retail operations as
6 adjusted by the Staff. The Staff calculated net
7 operating income for return of \$278,258,000 on an as
8 adjusted retail basis. The as adjusted retail rate base
9 was computed to be \$3,626,305,000. The Staff computed
10 the as adjusted rate of return on retail rate base to be
11 7.67%.

12 Column (7) presents the Staff's computation of the
13 Company's net proposed increase of \$51,149,000. The
14 increase consists of \$62,071,000 for the proposed
15 increase and an adjustment to reduce the proposed
16 increase by \$10,922,000 for fixed capacity charges that
17 the Company will incur for gas service to the Jasper
18 facility.

19 Column (8) presents the Company's retail operations as
20 adjusted to normalize the test year and on a pro forma
21 basis after the effect of the proposed increase in
22 retail rates. The Staff computed retail net operating
23 income for return of \$316,914,000 and a retail rate base

1 of \$3,626,305,000. The Staff computed a rate of return
2 on retail rate base of 8.74% after the effect of the
3 proposed increase.

4 **Q. WOULD YOU PLEASE BRIEFLY DESCRIBE THE OTHER ACCOUNTING**
5 **EXHIBITS THAT ARE ATTACHED TO YOUR SUPPLEMENTAL**
6 **TESTIMONY?**

7 A. Audit Exhibit A-1 details the retail electric accounting
8 and pro forma adjustments that changed as a result of
9 the settlement agreement.

10 Audit Exhibit A-2 details the Staff's computation of the
11 Company's customer growth as a result of the settlement
12 agreement.

13 Audit Exhibit A-5 provides a calculation of the
14 Company's return on common equity on a retail basis
15 before and after the effect of the proposed increase as
16 a result of the settlement agreement. The rate base, as
17 shown on Exhibit A, is allocated among the various
18 classes of debt and equity, excluding short-term debt,
19 according to their respective ratios as computed using
20 the Company's total capital structure as of August 31,
21 2004. The amount of retail as adjusted net income for
22 return needed to cover embedded cost rates on long-term
23 debt of 6.56% was computed by Staff to be \$111,711,000.

1 The amount of as adjusted retail income for return
2 needed to cover embedded cost rates on preferred stock
3 of 6.40% was computed by the Staff to be \$6,336,000. The
4 as adjusted retail rate of return on common equity was
5 computed by the Staff to be 8.78%. The as adjusted
6 overall rate of return was computed to be 7.67%. Such
7 overall return equals the rate of return on rate base
8 shown on Staff's Exhibit A. After the proposed retail
9 increase, the return on common equity was computed to be
10 10.90%. The overall rate of return was computed to be
11 8.74% after the effects of the proposed increase. Such
12 overall return equals the rate of return shown on
13 Staff's Exhibit A after the proposed retail rate
14 increase.

15 **Q. MS. SCOTT, DOES THIS CONCLUDE YOUR SUPPLEMENTAL**
16 **TESTIMONY?**

17 **A. Yes, it does.**
